

# NEW PRODUCT

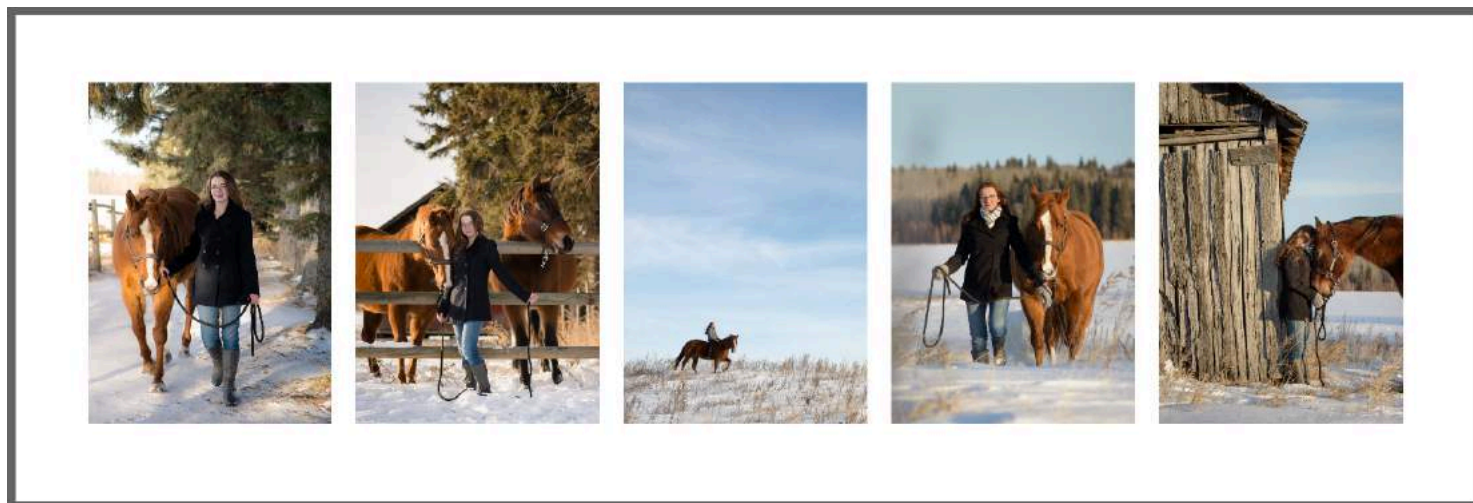

ANNOUNCEMENT!

*Collage Displays*

# The Inspiration

A number of my clients can find it hard to decide which images to print for display and this inspired the addition of Collage Displays to the à la carte menu. Now you can choose multiple images and have them displayed using one of four mounting options. Pick the mount that suits your style best and I will design on a collage layout that works with your favourite images.

All Collage Mounts come ready to hang. Your images are printed on quality photo paper and are completed with a UV laminate for a lasting and seamless finish.

Collage Size	Plaque	Floatmount	Flushmount	Standout
10 x 20	\$ 66	\$ 78	\$ 86	\$ 104
10 x 30	\$ 77	\$ 90	\$ 104	\$ 115
16 x 20	\$ 84	\$ 99	\$ 110	\$ 120

## Floatmount

Floatmounts give an illusion of being suspended in mid-air once displayed. Your Floatmount is finished with hand painted edges using up to four layers and are bevel edged for a seamless finish.

## Standout

Standout enhances your images with a pronounced 2" thick side. Make a real statement with a Standout display that will capture everyone's attention. Your Standout is finished with hand painted edges using up to four layers and are bevel edged for a seamless finish.

## Flushmount

The Flushmount display is a thicker, more refined version of the Plaques and are approximately 7/8" thick. Your Flushmount is finished with hand painted edges using up to four layers and are bevel edged for a seamless finish.

## Plaques

Plaques are approx. 3/8 "thick MDF Boards with bevelled edges & choice of edge colour.
